Experience Your Very Own Instant Replay

Our dual tuner DVR lets you do two things at once: watch a live program while recording another, record two programs that are on at the same time — or even watch a previously recorded program while recording another! The DVR features enable you to capture HD TV signals in a digital format. If the phone rings or you need to leave the room, you can simply pause the broadcast, and resume watching when it's more convenient. An instant replay feature lets you quickly review what you just saw. And you can maintain a personal library of your favorite programs to watch whenever it's convenient. Each DVR has integrated parental controls to help manage the programming your family can watch. DVR service includes high definition channels at no additional charge.**
